Message from the Chairman

For the past 2021, the company still meet challenge from COVID-19 pandemic for the second year, especially second wave from the spread of infection of the Delta variant which severely affect to economic and social of the country. Including challenges in marketing and business competitions are more intensively, these challenges are motivation for the company to adjust and improve the efficiency of operation, develop the current using technology system as well as improve employees to increase potential to be competitive.

The operating result of the company and subsidiaries in 2021, there are total revenue of Baht 34,116.11 million and net profit of Baht 3,358.97 million, increased from 2020 by 24.72% and 70.03% respectively. In respect of the store expansion and investment in the past year, the company operate business followed in domestic store expansion plan for more 4 stores, along with expand the investment in retail business for construction and home decoration to ASEAN with business partners in Indonesia and Philippines.

Nevertheless, the company not consider only profit maximization or economic growth, but have development and enhancement of good corporate governance continuously to create value of business

to be grow sustainable together with taking into account responsibility to stakeholders for all value chain both in social and environmental. As manifested from the company has received "Excellent" corporate governance assessment from the program Corporate Governance Report of Thailand Listed Companies 2021 (CGR), had been selected to be listed in Thailand Sustainability Investment: THSI 2021 for the listed companies conduct its business with realization to Environmental, Social, and Governance or ESG, including received 100 marks (full marks) assessment as its 3rd consecutive year for the Annual General Meeting Checklist 2021 (AGM Checklist).

Finally, on behalf of the Company's Board of Directors, we would like to extend our gratitude to all executives and employees for their dedication in role as the driving force of the company, as well as to customers, suppliers, shareholders and all stakeholders for their trust and confidence to continued support the company's business operations and hope to get support from you always.

Yours Sincerely,

(Mr. Apisit Rujikeatkamjorn)

Chairman

Message from Chief Executive Officer

The Year 2021, Thailand and all over the world faced with Covid - 19 outbreak which is continuing to mutate and affect to all sectors including the company's operation. Nevertheless, we, executive committee and all employees have learned many experiences from the past year and realize to safety, sanitation for all customers, employees, and all stakeholders. Therefore, we give the importance in pushing all employees to be fully vaccinated, so that, our employees have been fully vaccinated in proportion of 96.16% (as of 15 February, 2022)

For the Company's operating results in 2021, regarded as another year that we have the highest business profits with total revenues of Baht 34,116.11 million and net profit of Baht 3,358.97 million, which has grown-up more than the year 2020 at 24.72 % and 70.03 % respectively. As a result of adjusting the operation strategy in all aspects for driving business, leading to sales value of both same stores and new stores have significantly grown-up.

Anyway, we still have the intention to expand new stores and renovate same stores continuously with the principle "Prevent the company from High-Risk status while growing in competitive level". The Company continues to strive to keep the financial ratio to be in best level and ready to fully expand business when opportunity comes.

In addition, we realize to responsibility to all stakeholders to create sustainability in business operations along with giving the importance to society, environment, and corporate governance. Resulting to the Company had performance in sustainability which was accepted by various sectors, such as; was selected to be included in the list of "Thailand Sustainability Investment (THSI)" in kind of services group from the Stock Exchange of Thailand (SET), received an excellent 5-star rating on Corporate Governance Report (CGR) for Thai Listed Companies by Thai Institute of Directors (IOD), and received 100 marks (full marks) assessment as its 3rd consecutive year for the Annual General Meeting Checklist 2021 (AGM Checklist), assessed by Thai Investors Association.

On behalf of Chief Executive Officer for Siam Global House Public Company Limited, I would like to thank all shareholders, trade partners, customers and all stakeholders for the continued confidence and trust in the company's operations until get through this challenging period, and wish all of you to be healthy, stay safe from Covid-19, with a lot of happiness, herewith kindly wait for receiving dividend in this May.

Yours Sincerely,

m. Rlu.

(Mr. Witoon Suriyawanakul) Chief Executive Officer

(2) Marketing and Competition

Product Marketing Policy

The company has important strategies for product marketing by differentiation strategies as below;

- 1) Product Differentiation The company purchases and distributes completely construction equipment, home decorative items and gardening products both in form of materials and finished good. by focusing on customer's requirements and also selling special products that are non-stock in other shops.
- 2) Service Differentiation The company arranges its stores in Modern trade style to shows all products for customer's viewing, touching and selection, included installation services, renovation or decoration services, special order products, and giving consults by the company's specialist (Global Pro). Furthermore, the company also emphasizes on customer's convenience since parking until leaving from the store, Plus, there are Drive through service which allows customers to purchase products behind the building store without leaving their cars. In addition, the company has satisfaction guarantee, offering customers a full refund and products can be returned or replaced within 30 days if customers are not satisfied.
- 3) Personal Differentiation The company's employees always say greetings to customers to build familiarity and to feel that employees are always ready to serve. So that, employees also build impression to customers with their good product knowledge included fast service with quality and being full of service mind and Entrepreneur Spirit. In addition, customers are able to walk and view the product freely, the staff will be giving details or suggestions only when customers need.
- 4) Image Differentiation The corporate image is Large Home Center where differs from other competitors in construction materials industry both internal and external atmosphere. The shopping area, building style and goods shelves also impresses customers and feel free to select products by themselves with their satisfaction.

Anyhow, all strategies mentioned above have objective to develop excellence for Global House according to guidelines 2P3S as below;

Besides of differentiation strategies, the company has planned marketing strategies according to the principle 4Ps as below;

Product and Service Strategies

The company provides products as much as possible for each category. Currently, there are more than 280,000 items which helps to build exciting selection of products to customers and completely respond customer's needs.

Besides of Product Strategy, the company place an importance in service strategy for customer's convenience by developing and providing facility and build customers satisfaction as below;

- 1) Designing Drive Through system, customers can drive their vehicles through the store to collect their order, since placing order, payment and receipt transaction until driving off the store with the product, all within 10 minutes.
- 2) Transferring goods to the transportation vehicles will be managed by Crane system. By each store, there are not less than 5 cranes and not less than 4 forklifts for product placement on each category for the purpose of rapidity and comfortable services to customers.
- 3) Providing tile display system by model from the system using in Logistics which can quickly search the tile design that customers need within 1 minute, which is regarded as the fastest in Thailand. Besides, the company keeps stock of tiles equal to space more than 200,000 square meters per store.
- 4) The company has always adjusted goods shelves which helps to monitor the goods on shelves result in very low loss rate or defect only 0.1% 0.3%.
- 5) Delivery Service to the customer

Price Strategies

The company has different pricing policy following the kinds of product by competitive pricing for products with quick inventory turnover, popular products in the market, in order to increase and maintain market share. And pricing aims for profit goals for products with slow inventory turnover or new products in the market.

Place Strategies

The company emphasizes on location in the convenient transportation area and near to the residential community, which will be the important target customer group. Building design is similar to the warehouse as single-stores building in an open and airy spaces for goods shelves and easy to find. By focusing on visual merchandising by creating an attractive product display, establishing an efficient goods transfer system with fastness and convenience. and also emphasizing on building the Modern image and leadership in product distribution.

In the year 2016, the company has invested to install ASRS (Automated Storage & Retrieval System) which helps to manage the warehouse to be more efficient by increasing the rapidity and accuracy in product receiving and storage, reducing working time, reducing labor for transporting items into and out of inventory, space savings for storage and transferring, increasing storage capacity, increasing efficiency of warehouse management included reducing size of land space using for store construction. By the way, the company installed ASRS for the Distribution Center and operated stores in the year 2016 onwards. By the end of 2021, there are total ASRS operated 39 stores

Promotion Strategies

The company has different promotion policy according to the kind of product by sale promotion and selling products in competitive price for the wholesale market and general products in target market and selling products in medium price for rare items.

Besides, the company set the marketing plan along with target for each Segmentation in order to build overall market share increasing efficiently in competition. Which is expert in mostly in particular kind of products as below;

- Advertisement with the purpose for Awareness and Perception of the name "Global House" in aspect of distribution, style, location, products, office hours including building brand image that's Large Home Center in where has the most variety of products and selling in reasonable price with mind service staffs. By using many medias such as local radio, advertising sign, brochure, point of purchase display, direct mail and telephone directory, i.e.
- Sale Promotion with the purpose for Awareness, Creditability and Avoidance of Clutter, Lend Generation, Image Building and Reduce Advertising Cost. Target group is customers, mass media, financial institutions, association groups, and retail shops in the country. The activity style consists of publishing a statement of store pening, giving information to mass medias such as business newspaper, local newspaper including public relations department of the partners and organizing the opening ceremony, give supports to the community's activities, offering scholarships to students in local schools around the company, etc.

Target Customer Group

Customer group of the company has divided into 5 groups by details as below;

- Retail customers group is general minor customers as homeowners, minor technicians who buy product for their own usage (End - User).
- Small Retail shop group is small construction materials shop who buy product for resale in theirs shop.
- Contractor group is the customer group who buy product for using in construction, subcontract to extension and decoration for their customers
- Contractors group is customers group who buy product for using in construction, subcontract to renovation and decoration for their customers.
- Corporate Customer group is customer group who is both government and private sectors.

For higher trend in sale mostly from retail customers who are homeowners, technicians and small/medium contractors.

Marketing Crisis & Competitive

Retail Business in construction materials and home decor products tend to be high-growth in the future as a result of the progress of Mega Project by the government as it was continuously constructed since in the past such as the High-Speed Rail Linked 3 Airport Project, Project Investment Progress of Laem Chabang Port Phase 3, U-Tapao International Airport and Eastern Airport Project (Phase 1), the 3rd Runway Construction for Suvarnabhumi Airport Expansion Project. In addition, there are auctions and constructions of many new Mega Projects, for instance; the double track railway expansion project, High speed rails project, Airport expansion project, and road projects, etc. The aforesaid activities affect to living and lifestyle of people to having continuous development and expansion of community although Thai economy was affected by Covid-19 pandemic in second half of the year 2021 result to sales value doesn't meet the target. Nevertheless, the Company has continuously prepared and adjusted the operation strategy to deal with the situation happened by selecting products which respond customer's New Normal lifestyle to be in accord with customer behavior changed such as products for responding New Normal, Health promotion product group, etc.

In 2021, the Company has realized to the importance in products presentation through Omni Channel whether it be buying products at stores or shopping online more through social media, Website, as well as development and investment in many systems such as; Click & Collect online shopping system Development and Bank Agent Connection System Development for Bank-deposit-and-withdrawal-service of Bank of Ayudhya on sale counter in all stores for increasing customers convenience to buy and use service from home or anywhere. And for increasing customers convenience to buy and use service at stores, the Company has developed Self-Check Out point for customers to pay by themselves, Click & Collect Application Cabinet which is available for 24 hours to pick-up products, Drive-up service during Covid-19 pandemic situation that allows customers to pick-up products without leaving their cars, as well as developing ASRS for increasing the operating efficiency of the company for product storage, following up the products position and checking product status correctly and accurately.

Competitors

Competitors group in construction materials and home decoration industry are divided into the following groups;

(1) Home Center Business Group, for example:

- Follow up and Review: follow up the result of risk management according to the plan including assess the risk management result to ensure that the risk of the company was managed properly. The management will follow up and report to the audit and risk management committee and board of Directors.

2.2 Risk factor to the business operations.

The company analyzes and evaluates the risks, which have effect to the business operation, consisting of strategic risk, operational risk, financial risk, legal and regulatory risks, and emerging risks. In year 2021, there are risk factors and risk management as follows;

2.2.1 Risk to the business operations

1. Strategic Risks

1) Risk from domestic business expansion investment

The company has policy of stores expansion to cover all over the country. In 2021, the company has expanded more 4 domestic stores, there are total 75 stores. Plus 4 stores are under construction by each store needs investment fund around 300-400 million baht. From continuous stores expansion policy, the company may have risks if the operating result of new stores are not meet the target and affect to overview performance, which may arise from uncontrollable factors, such as Thai economic crisis, world economic crisis, political changes, consumer behavior changes, climate changes, Covid-19 epidemic outbreak, etc.

The company's risk management

The company managed risks from domestic investment expansion by doing Feasibility study and analysis before investment in stores expansion, considering the economic potential of each region appropriately and conform with the company business. Including consumer behavior survey and demand survey of construction materials and decoration products of target customer group in those regions. This helps the company to deal with the risks that may arise. Besides, the company have an advantage of expertise in business from over 20 years of business experience, construction cost for stores expansion both in part of land providing and construction cost expenses with competitive advantage. The aforesaid factors help to reduce risks from investment expansion of the company.

2) Risk from Foreign business expansion investment

The company has expanded investment to aboard by focusing on investment in ASEAN Economics Community which has already operated in Laos, Myanmar and Cambodia and has planned to continuous expand its stores in aboard. This may lead to risks if the operating result of new stores are not meet the target or have loss which result to the financial position and the company's overall performance.

The company's risk management

The company managed such risks relating to foreign investments by doing feasibility analysis and market research and analyzing the return on investment before making an investment decision. The company has considered 2 types of investment, (1) joint Venture on behalf of Global house International Co., Ltd, which is cooperated between the company and SCG Distribution Co., Ltd in proportion of 50:50, under the main objective to be holding Company for investment in construction materials retail business and has invested in Laos and Myanmar and (2) Subsidiaries in Cambodia on behalf of Global House (Cambodia) Co., Ltd, both 2 types of investment emphasize on investment with local partners of each country to rely on their expertise area of local partners, which helps to reduce risks from foreign business expansion investment of the company.

3) Risk from Industry competition

Retail business of building materials and home décor products in overview still has high growth potential and highly competitive, which has led to the big wholesalers and retailers expand their stores or continuous increase their agents to areas where are near the communities, business district and department stores in Bangkok and other regions to cover more market. Consequently, the company may get effects regarding market share from sale revenues that may not achieve the goal as expected, and it could affect to the company's profitability rate from the price competition.

The company's risk management

The company has planned to deal with those competitions by focusing on building differentiation strategy and product variation more than 280,000 items, lead to customers find products completely which are necessary for construction or decoration. In addition, providing home service covered to installation and maintenance for electric appliances, sanitary wares, water pumps, gutters, etc.

Furthermore, the company develop distribution channels and online service to comply with Digital technology and consumer behavior changes, including marketing channels, public relations, and listening customer's complaints and suggestions in order to improve operation to be more efficient which help to decrease the competition risk for the Company.

2. Operational Risks

1) Risk from inventory investment

AS at 31st December 2019, 31st December 2020, and 31st December 2021, the Company had inventory of 15,602.53 million Baht, 14,287.20 million Baht, and 16,185.62 million Baht respectively, or in percentage of total asset are 43.36%, 39.66% and 41.21 %. Referring to differentiation strategy and product variation policy causing the company has product varieties more than 280,000 items, from this highly number of products resulting to the company has risk for obsolescence of products which impact to decreasing of sales volume or lost, becoming sunk cost including other damages which may affect to the business liquidity of the operations.

The company's risk management

The company manages such risks by determining operation strategy for releasing inventory stock, that is sales promotion campaigns, developing online marketing on E-commerce channel, product screening to suitable match with customers for each region, improving service quality and memorandum of product return or exchange with suppliers. The reason for inventory turnover which helps to reduce inventory management cost and sunk cost problem.

Besides, the company has distribution center at "Wangnoi" district, Ayutthaya province where is good location, convenient transportation, able to distribute the products to other regions for all over the country on time. In addition, the company installed the "Automated Storage & Retrieval System: ASRS" for distribution center and all stores of the company that operated in the year 2016. ASRS will help the warehouse management system to be more efficient and able to control inventory quantity by connecting IT system with the management system of the company. That reduces the probability of damage occurrence and the inventory risk of the company. Moreover, the Company also has a policy to install an Automated Storage & Retrieval System for covering all branches completely in order to improve overview of operational efficiency.

2) Risk from product providing

According to differentiation strategy and product variation policy, the company need to provide the quality product which respond variety of customer needs for both quantity and price, including global price fluctuations for some products such as metals and electronics group. Therefore, the company may have risk from product providing to enough for quantity and price demand which may affect to the operation of the company.

The company's risk management

The company has policy for product providing both domestic and overseas from the manufacturers or distribution agents. Plus, the company is trade partner with the Siam Cement Public Company Limited who has its alliances for variety of products manufacturers. Besides, in the past years, the company has established a subsidiary company in China named Guangxi Global House International Trade Co., Ltd with the objective for product providing from China. This help to reduce the risk from product providing of the company.

3) Risk from human resource management

The company has planned to continuous expand its stores both domestic and overseas. Each store needs operational staffs around 150-200 persons, so the company need to manage employees properly even through the sufficient quantity, knowledge and ability to be in line with stores expansion plan for efficiency in operation and competitiveness both domestic and overseas market

The company's risk management

The company stipulates the recruitment strategy both internal and external by giving a chance for existing employees who intent to move back to their hometown for internal and focusing on local personal recruitment for the external strategy. Regarding knowledge and skill development, the company has Learning Center at Head Office and

Coaching Teams who are skillfull and having more than 20 years of training experience to transmit to new employees. Furthermore, the company has fair compensation management related to the economic for each area and properly welfares to attract candidates to work with the company.

4) Risk from customer behavior

The company has operated "Global House" since 1997 with original style both interior and exterior of stores including shopping atmosphere might not accord with consumer behavior of Generation X and Generation Y customers group with high numbers to 80% of all customers. Plus, Generation Y customer group is high potential group, causing the company have risks which may affect to sale revenue and generally of business operation

The company's risk management

The company manages risk by determining policy for business model adjustment to be "Modern" both appearance and internal atmosphere. Using Shop in Shop strategy such as Life Styles "USUPSO" shop and "La Mayon Coffee" coffee shop. In addition, the company improve and develop products and services from the customer satisfaction survey result in order to respond customer needs and consumer behavior which able to reduce risk in the company's operation.

5) Risk from Pandemic

The Coronavirus 2019 (COVID - 19) epidemic situation has led to the company has temporarily closed some stores following to the lockdown policy of government for highly infected area. Or some stores where is regularly opened but the customers were decreasing due to concerns about pandemic which affects to sale and operation in overview.

The company's risk management

The Company emphasizes on online distribution channel development to be modern, easier and more accessible to customers. For customers buy products via online channel, you can pick up the products through "Drive Up" channel without getting off the cars. And for customers who buy products or use service at stores, the Company has set preventive measures for cleanness and safety, such as; screening point at front of stores, providing alcohol gel, cleaning shopping area, etc. For safety of employees, the Company has set screening point before enter the workplace and social distancing around center area. If there are infected employees, the company allows to take a leave for healing and closely observing to make sure that no more infection, so they can back to work. For employees who has close contact with infected persons, the company allows to take a leave 14 days for home isolation according to preventive guidelines of department of disease control, the public health ministry for safety of customers, employees and other stakeholders as well.

6) Corruption Risks

The company operated business with integrity, honesty and transparency according to the good corporate governance and realizes to concise internal control procedures, determining anti - corruption policy, corporate governance manual, Business Ethics and code of conduct including publicizing to all stakeholders to be acknowledged and strictly followed.

The company's risk management

Beside of compliance to Anti-corruption policy and business ethic, to prevent mentioned above risks that may arise in the organization, the company determines the operation procedure under carefully and properly internal control which is regularly audited and monitored by internal audit team and store management team including building Anti - Corruption Consciousness to employees in the company.

Furthermore, there are 'whistle blowing' procedures by allowing both internal employees and external stakeholders to raise concerns about possible improprieties and corruption behavior on a confidential basis for through inspection carefully. Which can be notified via the Company's website www.globalhouse.co.th in the topic "Whistle Blowing" or e-mail secretary@globalhouse.co.th or Call Center 1160.

7) Human Right Risk

According to the company has expanded stores continuously to cover area over the country causing the company may have human right risk such as employment condition, health and safety of employees, Infringement of privacy information, Restricting Freedom of Expression and Communication regarding safety of community and illegal labor in Supply Chain, etc. Thus, the company must give the importance in auditing the business operations to protect the infringement of human rights by any related persons for all business chains.

The company's risk management

The Company have intention to respect human right and comply with the Human Right Policy of the company to protect the infringement of Human right of employees, customers, trade partners and account payables, shareholders and communities related with the business operations of the company as well as Supply chain, and also procedure of Human Rights Due Diligence. Additionally, the company has provided the channels for handling comments and suggestions from employees through "Red Box" (Box for Suggestions or complaints from employees) which are available all stores, including through welfare committee in each store. Anyway, there were none of the infringement of Human rights causing from business operations of the company to be founded in the past year.

3. Financial Risks

1) Risk from Account Receivable

The Company has policy to sell products both in cash and credit. Highly cash sales revenue when compared to total sales revenue since 2020 - 2021 by the proportion of 95.89%, 96.73% and 97.40% accordingly. The company also place an important on credit sales revenue even through its proportion was lower by separating credit customers to be 5 groups that is general customer group, government agencies group, construction materials store entrepreneurs' group, contractors' group and project owners' group. As at December 31, 2021, the Company has account receivable of 125.22 million Baht

The company's risk management

The company realized to credit line consideration to the customers by considering only customers that has reliable financial status and having the contractor place with a letter of guarantee from SCB Bank with completely contract drafting. Besides, the company have a cooperation with the financial institution for supporting credit for construction materials store entrepreneurs and contractors who are business partner with the company. This helps to reduce risk from account receivable of the company

the company has policy to set the allowance for doubtful accounts by considering the general accounts receivable with no guarantees and overdue more than 60 days to be 100%. For the government agencies, foreign account receivables, and related parties' accounts receivable with overdue more than 90 days, the Company will set the allowance for doubtful accounts to be 100%. In 2021, the Company recorded Expected Credit Loss in impairment of 3.12 million Baht and no bad debt.

2) Risk from interest rates

The company has Interest Bearing Debt paying to the financial institution that is Short-term loans and Long-term loans for using in operation and branch expansion investment. There is floating rate which may increase or decrease depend on interest crisis in financial market. Thus, the company has risk from interest rate fluctuations.

The company's risk management

The company manages risk by applying credit service with many banks for increasing ability to negotiate the interest rate both Short-term loans and Long-term loans. In addition, there are derivative for Long-term loans with the bank in case of fixed rate.

3) Risk from Currency fluctuations

Currency Fluctuations affect to the operation either directly or indirectly due to the company import products from overseas, business expansion, and foreign investment by sale revenues and some expenses are in foreign currency which its value may vary following to the currency exchange rates.

The company's risk management

To reduce effects from currency fluctuations, the company analyzes and closely follows-up the foreign currency volatility and using forward contract from banks to defend any probability of risk occurrence in the future.

4. Compliance Risks

1) Risk from acquiring or having in place licenses or maintain licenses for business operations

In operating the business, some kind of products require a license to sell. That the Company has to provide or maintain various licenses to operate business, for examples, a license or possession for the commercial purpose of the invention utensils or other things made of forbidden wood, license to sell or hold for sell of fertilizer, license for possession of hazardous substance, license to operate business harmful to health, license to sell controlled seed, The company may have risk in providing a license or unable to renes licenses within the deadline completely which may affect to business operations.

The company's risk management

The company manages risk by determining the audit process for completeness of all operation licenses and develops internal operation system for reminding and follow up to renew that license to reduce such risk

2) Risk in compliance with personal data protection act (PDPA)

Personal Data Protection Act B.E.2562 is a legal framework which protects personal data of individuals and allows businesses to realize economic values from personal data which will come into full effect on 1 June 2022. Due to the operation of the company has related to personal data of many groups of stakeholders such as customer, supplier, and employee which may be cause of risk if the compliance is not accord with the regulations correctly.

The company's risk management

The company is well aware of business operation in accordance with the regulations correctly, for example Privacy policy notice and asking for permission to use personal data, responding by right of data processor, appointment of Data Protection Officer (DPO) to comply with applicable laws and regulations including communicate to employees in accordance with legal personal data protection. Besides, the company has set up Back-up system, install Firewall system including follow up and remind to ensure that important data will not be lost or be revealed which able to prevent risk in the operation of the company.

5. Emerging Risks

1) Risk from Technological Change

Presently, the advancement of technology has significantly impact on business operations and competition as play an important role to consumer's behavior such as the increasing preferences of online purchasing or accessing more information through digital media, resulting many entrepreneurs to change their business models.

The company's risk management

To deal with Technological Change and higher competition, the company has adjusted business operational strategy into Retail business in form of Omni-Channel, developing a Click & Collect application for data connection between stores and online channel, including a various of payment channels for customers to be easier accessible to products and services. In order that, the company has Innovation & System Development for developing programs and applications to respond the change of strategy or corporate operational policy in time without Outsourcing and having an advantage in operational cost.

Quantity of A4 paper use per store (Pcs)	44,371	31,169	33,820	28,000	2030

3.3.2 Environmental Performance

1. Energy Management

Determination

The company has intention to operate its business simultaneously with efficient energy management, maintains to prevent the environmental impacts by adhering the Sustainable Resource Use Guidelines together with Climate Change Mitigation and Adaptation, which begins from designing the building structure, work process improvement, machine, equipment to conform with energy conservation.

Management guidelines

- 1) Operations under regulations, laws and international standard
- 2) Since 2016, the company has policy to install Automated Storage & Retrieval System: ASRS (which is closed system, no lighting required in working result in reducing electricity consumption, besides of energy saving, the ASRS also helps to improve the efficiency in warehouse management)
- 3) In 2017, the company have changed the air-conditioning system from Misting Fans to be Air-Condition and improve lighting system inside the store which need to use more electric energy, then, have policy to install Solar Rooftop to generate electric energy from solar energy for energy saving in long term, and the company have already installed completely for all stores in 2019, resulted in reduction of operating expenses of the company. Moreover, in 2020, the company have developed the Air-condition control program causing more reduction of energy consumption.

Operating Results

1.1 Details of Electricity consumption from transmission line

Vasu	Numbers of	The quantity used for electric energy	The quantity used for electricity per
Year	Store	consumption (kWh)	area (kWh / square meter)
2018	61	47,387,558.37	36.34
2019	66	49,159,471.93	35.61
2020	71	56,380,314.27	38.87
2021	75	72,367,475.00	47.97

Remark:

- The period of 2018-2019, on process of changing the air conditioning from Misting fans to be replaced by air-conditioners, which have finished in 2019.
- The year 2020, the Company have temporarily closed their 39 stores since 22 March to 16 May 2020, according to Lockdown measures to control the Covid-19 pandemic, led to the electricity consumption from transmission line per store was lower than the year 2021.

1.2 Renewable Energy Consumption (Solar rooftop)

Since the year 2017, the company has policy for renewable energy consumption, so the company has started the Solar Rooftop Installation Project for electricity generation from Solar energy, no effects on environment as it's clean energy and also helps to reduce the operating expenses. In 2021, the company has Solar Rooftop to generate its own electricity covered in all stores, totally 75 stores, the generated electricity volumes 78,860,821 kWh/year.

Year	Number of Stores	Accumulated number of installed store (Solar cell)	Generated Electricity Volumes (kWh / year)
2019	66	66	18,505,129
2020	71	71	77,049,661
2021	75	75	78,860,821

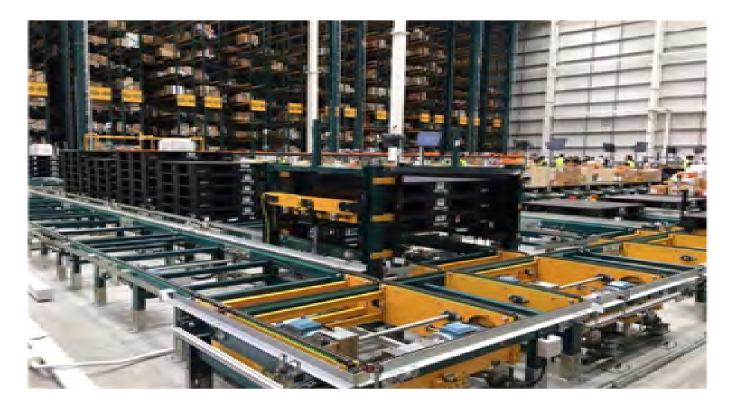

1.3 Electric Power System Changing Project both interior and exterior

The company have action plan to improve lighting system both inside and outside the building which result to reduction of energy consumption for 541,042.40 kWh/year by the details of operations as below;

Project	Number of Stores	Reduced Energy Volumes (kWh/Year)
Change street light around the building from Street Light 120 Watt to	22	385,440
be Solar Cell system		
Change Customer's Garage light from LED 20 Watt to be Solar Cell	17	62,050.0
system		
Change light in display tray from LED 14 Watt to be LED 10 Watt	36	68,328.0
Change Aisle light from TLD 36-Watt, 13 set to be LED 48-Watt, 4 set	19	24,882.8
Change Rack light from TLD 20 Watt to be LED 18 Watt	36	341.6

1.4 Automated Storage & Retrieval System: ASRS

Since the Year 2016, the company has installed Automated Storage & Retrieval System: ASRS which is controlled by computer in all the system to increase rapidity, accuracy and efficiency in the warehouse management of the company. Besides, the ASRS is closed system, no lighting required to work, result to reduce electricity energy consumption result in the electric energy consumption has reduced. In 2021, the company has installed completely 39 stores.

2. Water Management

Determination and Goal

The company gives the importance to efficient water consumption, from water supply, ground water and Recycle water in the company's operation for realizing to the importance of water and energy conservation as well as maximizing the value.

Management Guidelines

The company has water consumption management by mostly using within the building store and the staff canteen for cleaning. Anyway, the company attempts to reduce water consumption volumes by determining the Technic department to regularly calibrate waterpipe, cleaning equipment and water meter in every month.

For new store expansion and same-store renovation, the company has determined to install water-saving sanitary ware, urinal, and automatic faucet. In addition, the company operates the reduction of wastewater emission to environment project by recycling wastewater from stores through the wastewater treatment process to reuse in water the plants, can reduce the water consumption volumes from water supply and ground water by the following water consumption details during the year 2019 - 2021;

Operating Result 2021
Water Consumption Statistic

	2019	2020	2021
Accumulated Number of stores	66	71	75
Accumulated Number of stores in water supply consumption	53	57	61
Accumulated Number of stores in ground water consumption	13	14	14
Accumulated Number of stores in water the plants system	15	20	26
Water Consumption Volumes separated by sources			
 Accumulated water supply consumption volumes (m³/ year) 	401,382	296,394	296,940
 Accumulated ground water consumption volumes (m³/ year) 	122,021	87,444	95,670
Total Volume of water consumption (m³/year)	523,403	383,838	392,610
Net rate of water consumption of store			
 Water supply consumption rate / stores* 	7,573	5,199	4,867
 Ground water consumption rate / stores* 	9,386	6,246	6,834
Water Recycling volumes (m³/ year)	102,209	137,515	224,640
Accumulate Green Area (m².)	7,445	9,926	11,800

Remark: * water Consumption Rate*/store has reduced due to the company has cancelled Misting Air system during 2019 onwards

As at the end of 2021, the Company have total 75 stores, the stores used for water supply of 61 stores, and the stores used for ground water of 14 stores. From water consumption information of the company in 2021, the quantity used for water supply per store has decreased by 6.39% due to the Company has changed the faucets and urinals and upgraded to be sensor system, and toilets were changed to be water-saving toilets for new stores and same stores in the renovation plan. For the quantity used for ground water per store has increased by 9.41% as a result of temporary closure of stores in 2020 according to Lockdown measures since 22 March to 16 May, 2020 to control the Covid-19 pandemic, causing the quantity used for ground water was lower than the year 2021.

In addition, the Company have water reuse and accumulated green space increased from the year 2020 by 63.36% and 18.88% respectively.

rate of water consumption 2019 - 2021

3. Waste and Garbage Management

Determination and Goals

The company has policy and guidelines for proper and systematic management of waste and garbage generated in the store, no effects to the community, environment and conform with the laws. 4. Management Discussion and Analysis

4.1 Overview of operating result

The year 2021 is the second year of Covid-19 outbreak that continues to *affect Thai economy and society* particularly in period of second quarter and third quarter. Therefore, the government imposes strict lockdown measures again in Bangkok and suburbs that caused economic activities were obviously impacted.

Nevertheless, the company can deal with the challenges arise by adjusting the operation strategy to be in accordance with economic condition that continue to be affected by Covid-19 pandemic, and changing customer behavior in New Normal, such as; House Brand product Management, increase sales through different more channels, online distribution channels development to be more easily accessible to products and services for customers as well as stores renovation to be modern for attracting more customers into stores.

From the operation strategy adjustment resulted to the company have net profit (separate financial statements) equal to Baht 3,245.11 million increasing by Baht 1,336.40 million or 70.02%. And include share of profit of joint venture from Global House International Co., Ltd and investment in a subsidiary company on behalf of Global House Cambodia Co., Ltd, led to the Company's net profit of consolidated financial statements was Baht 3,358.97 million increasing by Baht 1,383.45 million or 70.03 % compared with the year 2020

In addition, the Company has followed to the plan of domestic stores expansion and investment expansion in retail business for construction materials and home decoration in Asean with business partners, by details as follow;

Domestic Store Expansion

The Company has opened more 4 stores at Phayakkhaphum Phisai, Kabin Buri, Nong Han, and Phan. Therefore, the end of year 2021, the Company has operated total 75 stores.

Establishment of the subsidiary company

The Company has established subsidiary company in China under name "Guangxi Global House International Trade Co., LTD.", by holding 100.00% of share with objective to support the Company's business operations. Besides, the Board of Directors has approved the establishment of the subsidiary company in Philippines under name "Global House Philippines Co., Ltd", by holding 55.00% of share with objective to support the business expansion in Philippines, which is currently being processed

Investment Expansion

The Company has expanded investment to Indonesia on behalf of "Global House International Co., Ltd or ("GBI") which is joint venture company between the company and "SCG Distribution Co., Ltd" in proportion of 50%. GBI holds 22% in Caturkarda Depo Bangunan Tbk or ("CKDB"), by CKDB is a leading Indonesian retailer of building material, decorative, hardware, construction, renovation, and decorative house/garden products under the brand "Depo Bangunan".

Performance and profitability

In 2021, The company's total revenues and net profit were Baht 34,116.11 million and Baht 3,358.97 million increasing from the year 2020 by 24.72% and 70.03% respectively. As a result of adjusting operation strategy to be in accord with economic conditions that continue to be affected by Covid-19 pandemic and changing customer behavior in New Normal, such as; House Brand product Management, increase sales through many more different channels, online distribution channels development to be more easily accessible to products and services for customers as well as stores renovation to be modern for attracting more customers into stores.

1) Revenue

Unit: Million Baht

	2021		202	0	9	
Transactio ns	Amount	%	Amount	%	Amount	%
1. Sale Revenues	33,010.21	96.76	26,207.95	95.81	27,482.16	96.01
Construction Material Products	16,286.41	47.74	10,713.21	39.17	10,439.47	36.47
Decoration Material Products	16,723.80	49.02	15,494.74	56.64	17,042.69	59.54
2. Other Revenues	610.61	1.79	544.70	1.99	538.16	1.88
3. Subsidiaries Revenues	495.29	1.45	601.24	2.20	604.10	2.11
Total Revenues	34,116.11	100.00	27,353.89	100.00	28,624.42	100.00

In 2021, total revenues of the company and subsidiaries were Baht 34,116.11 million increasing by Baht 6,762.23 million or 24.72% from the year 2020. It was mainly driven by the increase of same stores sales growth and opening new 4 stores. The company's revenues were divided to be; sales revenues, other revenues, and subsidiaries revenues with details as follows:

- Sales Revenues was Baht 33,010.21 million increasing by Baht 6,802.26 million or 25.95%, comprise of retail sales revenues of construction material products and decoration material products. In 2021, sales revenue was increased by Baht 5,573.20 million and Baht 1,229.06 million respectively.
- Other revenues was Baht 610.61 million increasing by Baht 65.91 million or 12.10%. The main reasons from the increase of sale promotion revenues and transportation revenues of the company.
- Mostly revenues from subsidiaries, which are sales revenues, and other revenues of subsidiaries in Cambodia on behalf of Global House Cambodia Co., Ltd, were Baht 494.81 million decreasing by Baht 106.43 million or 17.70%. Due to Curfew order and Lockdown measure of the government to control Covid

2) Cost of Sales and Gross Profit

In 2021, the company and subsidiaries have cost of sales Baht 25,067.00 million increasing from the year 2020 by Baht 4,666.00 million or 22.87%. As a result of the increase of sales revenues that gross profit was Baht 8,430.81 million increasing from the year 2020 by Baht 2,028.85 million, gross profit margin was 25.17% increasing from last year that gross profit margin was 23.89%. This is due to the strategy adjustment of House Brand products management and steel price increased in some periods

3) Distribution Costs & Administrative expenses

In 2021, the company and subsidiaries have distribution costs and administrative expenses of Baht 4,806.97 million increasing from the year 2020 by Baht 505.99 million or 11.76%, such expenses were equal to 14.35% of sales by details of each expense as follows;

- Distribution cost was Baht 2,600.87 million increasing by Baht 279.85 million or 12.06%. It was mainly driven by the increase of salary expenses of 4 new stores and selling expenses.
- Administrative expense was Baht 2,205.16 million increasing by Baht 293.06 million or 15.33% arise from expenses of Head quarter and expenses for same stores renovation to improve the stores image to be modern and correspond the customers' behavior in the present.
- Other expense was Baht 0.95 million decreasing from last year by Baht 66.91 million or 98.60% due to the decrease of depreciation and amortization expenses from stores renovation.

4) Financial Costs

Financial costs for the year 2021 was Baht 180.42 million decreasing by Baht 65.46 million or 26.62% from the year 2020 as the Company has made repayment of loans from financial institutions in every quarter and redemption of debentures in 3rd quarter, resulted in the decrease of interest expenses.

5) Net Profit

Performance for the year 2021, the company and subsidiaries have net profit of Baht 3,358.97 million increasing by Baht 1,383.45 million or 70.03% compared with the year 2020 and considered Net profit ratio/net sales that was equal to 10.03% increasing from last year that Net profit ratio/sales was 7.37%. It was mainly due to the company's operation strategy adjustment that produced the increase of sales of products and services including efficiency of expenses management.

6) EBITDA

EBITDA for the year 2021 was Baht 5,583.59 million increasing from the year 2020 by Baht 1,767.14 million or 46.30%.

7) Profit Efficiency

· Return on Equity: ROE

(Mr.Apisit Rujikeatkamjorn)

Chairman of the Board

Financial Statements

For the Year Ended December 31, 2021 and Report of Certified Public Accountant

M.R. & ASSOCIATES CO., LTD.

Certified Public Accountants

REPORT OF CERTIFIED PUBLIC ACCOUNTANT

To the Shareholders and Board of Directors of Siam Global House Public Company Limited

Opinion

I have audited the consolidated financial statements of Siam Global House Public Company Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at December 31, 2021, and the consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. I have also audited the separate financial statements of Siam Global House Public Company Limited, which comprise the separate statement of financial position as at December 31, 2021, and the separate statement of comprehensive income, separate statement of changes in shareholders' equity and separate statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Siam Global House Public Company Limited and its subsidiary as at December 31, 2021, and their consolidated financial performance and their consolidated cash flows for the year then ended in accordance with Thai Financial Reporting Standards. Also, the accompanying separate financial statements present fairly, in all material respects, the financial position of Siam Global House Public Company Limited as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Federation of Accounting Professions' Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is the matter that, in my professional judgment, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

Valuation of merchandises

The Group has various categories of products with large numbers of inventory items. The merchandise balance is material to the financial statements. As disclosed in Notes 3 and 6, merchandises are valued at the lower of cost and net realizable value. During the year, the Group reviews their merchandises values by comparing their cost against their net realizable value. Any loss on decline in value of merchandises was charged to expense for the year. The Group has established a policy to provide an allowance for obsolete and slow-moving inventories based on the physical condition and life cycle of inventory in each category. This involves significant management judgment and estimation.

My audit procedures included inquiring the management who is responsible for this to obtain the method and assumptions used in establishing the policy to provide an allowance for decline in value of merchandises. I obtain understanding of and evaluate the appropriateness of the Company's accounting policy and review the consistency of the application of the policy. I randomly test the accuracy of the inventory aging analysis report prepared by management. I also randomly test of loss on decline in value of merchandises and test the calculation of the allowance for obsolete and slow-moving inventories according to the defined policy.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to audit committee for correction of the misstatement.

Responsibilities of Management and Audit Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide audit committee with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with audit committee, I determine that matters that were of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. I describe the matter in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Mr. Methee Ratanasrimetha) Certified Public Accountant Registration No. 3425

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY Notes to the financial statements

December 31, 2021 and 2020

1. GENERAL

Siam Global House Public Company Limited, "the Company", is incorporated in Thailand. The Company was listed on the Stock Exchange of Thailand on August 19, 2009.

The Company is engaged in merchandising of construction and decoration materials and equipment.

The registered office is 232 Moo 19, Tambol Robmuang, Amphur Muang Roi-Et, Roi-Et.

As at December 31, 2021, the Company has a total of 75 branches operating in other provinces and its head-office is located at Amphur Roi-et, Roi-Et. The Company has a Distribution Center (DC Wang-noi) located in Amphur Wang-noi, Phra Nakhon Si Ayutthaya. The total of value added tax registration operating branch is 76 branches. (December 31, 2020 : 72 branches)

2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS.

The accompanying financial statements are prepared in Thai Baht, which is the core functional currency, and in the Thai language in accordance with the financial reporting standards in Thailand including interpretations and guidelines promulgated by the Federation of Accounting Professions ("TFAC), applicable rules and regulations of the Securities and Exchange Commission. Accordingly, the accompanying financial statements are intended solely to present the financial position, financial performance, and cash flows in accordance with the financial reporting standards in Thailand.

Except as otherwise disclosed in the significant accounting policies, the accompanying financial statements have been prepared under the historical cost convention.

Starting from January 1, 2021, the Group have adopted Thai Accounting Standards (TAS) and Thai Financial Reporting Standards (TFRS) as well as Thai Accounting Interpretation (TSIC), Thai Financial Reporting Interpretation (TFRIC) and accounting guidance, issued and revised by TFAC, which became effective from the accounting period starting on or after January 1, 2021. The aforesaid adoption of newly issued and revised TAS and TFRS as well as TSIC, TFRIC and accounting guidance did not have any material effect on the Group.

TFAC issued several Notifications which were announced in the Royal Gazette during 2021 regarding the revision of TFRS with effective from the accounting period starting on or after January 1, 2022 whereby the Group had not yet adopted in the preparation of the accompanying financial statements and has no policy to early adopt before effective period. Such revised TAS and TFRS as well as TSIC and TFRIC are as follows:

- TFRS that is revised attributable to the revision of covid-19-related rent concessions i.e. TFRS 16.
- TFRS that is revised attributable to the revision of extension of the temporary exemption from applying TFRS 9 i.e. TFRS 4.
- TFRSs that are revised attributable to the revision of interest rate benchmark reform-phase 2 i.e. TFRS 4, TFRS 7, TFRS 9 and TFRS 16.

The Group's management has preliminarily assessed and believed that there will be no material effect to the Group's financial statements upon adoption of the aforesaid revised TAS and TFRS as well as TSIC and TFRIC.

The Group disclosed information for the year ended December 31, 2020 for being the comparative information in the financial statements for the year ended December 31, 2021 in the form of corresponding figures.

For convenience of the readers, an English translation of the financial statements has been prepared from the Thai language statutory financial statements that are issued for domestic financial reporting purposes.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY Notes to the financial statements (continued)

December 31, 2021 and 2020

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiary (together referred to as the "Group") and interests in joint venture. Significant intra-group transactions between the Company and its subsidiary and joint venture are eliminated on consolidation.

Subsidiary is the entity controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies as well as variable returns from a company so as to obtain benefits from its activities. The financial statements of subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. Accounting policies of subsidiary are transformed as deemed necessary to uniform for the similar policies.

Changes in a parent's ownership interest in subsidiary that do not result in the loss of control are accounted for within equity. When an entity loses control of subsidiary, any gain or loss is recognized in the profit or loss. Any investment retained in the former subsidiary is measured at its fair value at the date when control is lost.

Use of Estimates

In order to prepare financial statements in conformity with the Thai financial reporting standards, management needs to make estimates and set assumptions that affect income, expenditure, assets and liabilities in order to disclose information on the valuation of assets, liabilities and contingent liabilities. Actual outcomes may, therefore, differ from the estimates used.

The estimates and underlying assumptions used in the preparation of these financial statements are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The significant estimates and underlying assumptions used in preparation of these financial statements which may be affected by significant uncertainty are as follows:

- Net realizable value and estimate of allowance for obsolete and slow-moving inventories.
- Useful lives and residual values of plant and equipment, right-of-use assets and intangible assets.
- Consideration of the right to renew the lease and the discount rates of the lease liabilities.
- Expected periods that deferred tax assets will be realized.
- Assumptions used in calculation of liability for post-employment benefits.
- Fair values and fair value measurements of financial assets, financial liabilities and other financial instruments.

Cash and Cash Equivalents

Cash and cash equivalents are carried in the statement of financial position at cost that include cash on hand and cash at financial institutions. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturity of three months or less and without restriction of use or being collateral and that are subject to a low or an insignificant risk of change in value.

Restricted deposits at banks were presented as a separate item under non-current assets in the statements of financial position.

Notes to the financial statements (continued)

December 31, 2021 and 2020

Trade and Other Accounts Receivables and Allowance for Impairment of Expected Credit Loss

Trade and other accounts receivables are carried at the original invoice amount or at the amount due net of allowance for expected credit loss (if any).

The Group recognizes allowance for impairment of expected credit loss in accordance with the policy described in the financial instruments section.

Merchandises

Merchandises are valued at the lower of cost and net realizable value. Net realizable value is the selling price in the ordinary course of business, less marketing, distribution and other expenses which are necessary for sale of goods.

Cost of inventories is determined by the weighted average method. Cost of inventories comprise all purchase cost and costs directly attributable to the acquisition of the inventory less all attributable discounts.

Volume incentives received from the supplier are accounted for as a reduction of the value of inventories and recognized in profit or loss when the related inventories are sold.

An allowance for loss is made for all deteriorated, damaged, obsolete and slow-moving inventories.

Investments in Debt Securities

Investments in debt securities that the Group has the positive intent and ability is hold to maturity being classified as investments in debt securities is stated at amortized cost, less allowance for impairment losses (if any). The difference between the acquisition cost and redemption value of such debt securities (if any) is amortizes using the effective interest rate method over the period to maturity.

Investments in Joint Venture and Subsidiaries

Investments in joint venture and subsidiaries in the separate financial statements are accounted for using the cost method net of impairment losses (if any). Dividend income is recognized when it was declared.

Property, Plant and Equipment

Land and land not used in operation are stated at cost less allowance for impairment (if any). Plant and equipment are stated at cost less accumulated depreciation and allowance for impairment (if any). When assets are retired or disposed of, their carrying amounts are eliminated from the accounts and any gain or loss resulting from their retirement or disposal is included in the statement of comprehensive income. Costs of testing run the production or utilization of assets at normal level and costs of asset dismantlement, removal, and restoration (if any) are included as part of asset cost and subject to depreciation.

Depreciation is charged to the statement of comprehensive income on a straight-line method over the useful lives of each part of an item of assets. Depreciation is taken into account separately when each component is significant. Depreciation methods, residual values, and useful lives are reviewed at least at each financial year-end and adjusted as appropriate. The residual value of an asset is currently estimated at the present expected value of the asset if the asset is already of the age and in the condition expected at the end of its useful life. The useful lives of the assets are as follows:

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY Notes to the financial statements (continued) December 31, 2021 and 2020

Land improvements	10	years
Buildings	30	years
Building improvements	5, 10 and 17	years
Furniture, fixtures and office equipment	5, 6, 10, 20 and 30	years
Computer equipment	3	years
Transportation	5	years

No depreciation is provided on land and assets under construction.

Right-of-use Assets

The Group measures right-of-use asset at cost less accumulated depreciation and allowance for impairment (if any) with adjustment pertaining to re-measurement of lease liabilities (if any).

At the commencement date of the lease, cost of the right-of-use asset comprised (1) the amount of initial measurement of lease liability, (2) any lease payments made at or before the commencement of the lease, less any lease incentives received, (3) any initial direct costs incurred by the lessee (if any) and (4) an estimate of costs to be incurred in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease (if any and being material).

Depreciation is charged as expense in profit or loss and calculated by the straight-line method attributable to the related lease terms as follows :

	Period
Land	6 - 30 years
Building space	3 years

Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses (if any).

Amortization

Amortization is charged as part of administrative expenses in the statement of comprehensive income on the straight-line method over the estimated useful life of each type of intangible asset of 3-5 years. Intangible assets with an indefinite useful life (if any) are not amortized but are tested for indication of impairment at each reporting date. Amortization methods, residual values, and useful lives are reviewed at least at each financial year-end and adjusted if appropriate.

Impairment of Non - financial Assets

The carrying amounts of the assets of the Group are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts (the higher of asset's fair value less costs to sell or value in use) shall be estimated. The review is made for individual assets or for the cash-generating unit.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY Notes to the financial statements (continued) December 31, 2021 and 2020

In case that the carrying amount of an asset exceeds its recoverable amount, the Group recognizes the impairment losses by reducing the carrying amount of the asset to its recoverable amount and by recording the devaluation in the statement of comprehensive income. The reversal of the recognized impairment losses is recorded as part of other income when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased. The reversal of the impairment losses shall not exceed the carrying amount of the asset, net of depreciation or amortization, that would have been determined had no impairment losses been recognized for the asset in prior years.

Trade and Other Accounts Payables

Trade and other accounts payables are stated at cost.

Lease Liabilities

At the commencement date of the leases, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group's incremental borrowing rates (average interest rates on borrowings with similar term and characteristics to the underlying asset) shall be used. The lease payments that are not paid comprised (1) fixed payments (less any lease incentives receivable, (2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date (if any), (3) amounts expected to be payable under residual value guarantees (if any), (4) exercise price of a purchase option if it is reasonably certain to exercise that option (if any) and (5) payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease (if any).

After the commencement date, the Group shall measure the lease liability by (1) increasing the carrying amount to reflect interest on the lease liability (if any), (2) reducing the carrying amount to reflect the lease payments made (if any) and (3) re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments (if any). Interest on lease liability and variable lease payments not included in the measurement of the lease liability is charged as expense in profit or loss.

Lease fees attributable to short-term lease (not exceeding 12 months from commencement date) and lease of low-value asset are charged as expense in profit or loss on a straight-line basis over the related lease terms.

Deferred interest expenses which are presented net with finance lease liabilities will be amortized to finance costs over the term of the lease using the effective interest rate method. Each payment of finance lease liabilities is divided into principal and interest.

Employee Benefits

Short-term benefits

Salaries, wages, bonuses and contributions to social securities fund are recognized as expense upon their occurrences and on accrual basis.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in the statements of comprehensive income.

Notes to the financial statements (continued)

December 31, 2021 and 2020

Post-employment benefits

Obligations on defined contribution plan which is the provident fund are recognized as an expense in the statement of comprehensive income when contribution to the fund on an accrual basis.

Obligations on post-employment benefits which are defined benefit plan that will be settled to the employees upon retirement or termination are calculated by estimating the amount of future benefits that employees have earned in return for their service in the prior and current periods. The benefits are discounted using the project unit credit method to determine present value of obligations. The calculation is annually performed, or at least every three years, by the qualified actuary. Expenses from the estimated liability for post-employment benefits comprise current service cost and interest cost, which are recognized as profit or loss whereas actuarial gain/loss on measurement is recognized as other comprehensive income or loss in the statement of comprehensive income.

Provisions

A provision is recognized in the statement of financial position when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

Warranties

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

Foreign Currencies

Foreign Currency Transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Thai Baht at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognized in the statement of comprehensive income.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to Thai Baht using the foreign exchange rates ruling at the dates of the transactions.

Foreign entity

Assets and liabilities of foreign entity are translated to Thai Baht at the exchange rates ruling at the end of reporting period (the closing rate).

Revenues and expenses of foreign entity are translated to Thai Baht at the exchange rates ruling at the dates of the transactions.

Differences arising on foreign currency translation or conversion are recognized as other comprehensive income or loss and separately presented as other component of equity until the subject foreign currency investment is disposed.

Notes to the financial statements (continued)

December 31, 2021 and 2020

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Principal market is the market with the greatest volume and level of activity for the asset or liability. Market participants comprise buyers and sellers in the principal or most advantageous market for the asset or liability whereby market participants are independent of each other, knowledgeable and having a reasonable understanding, able to enter into a transaction for the asset or liability.

To increase the consistency and comparability in fair value measurements and related disclosures in the financial statements, the fair value hierarchy is categorized into 3 levels with respect of the inputs to valuation techniques used to measure the fair value. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities ("Level 1 inputs"), secondary priority to other observable inputs ("Level 2 inputs"), and the lowest priority to unobservable inputs ("Level 3 inputs").

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

Financial Instruments

Recognition and measurement

The Group initially measures financial assets at fair value, plus transaction costs in case of financial assets that are not measured at fair value through profit or loss. Financial assets shall be classified and measured with respect to the business model on asset management and characteristics of the asset's contractual cash flows which is divided into three categories i.e. amortized cost, fair value through other comprehensive income, and fair value through profit or loss. Upon changes in business model on financial asset management are known, the affected financial assets shall be considered for proper reclassification.

Except for derivative liabilities, the Group initially measures financial liabilities at fair value net of transaction costs. Financial liabilities shall be classified and measured at amortized cost except for financial liabilities measured at fair value through profit or loss (such liabilities include derivative liabilities). Reclassification of financial liabilities is prohibited.

Classification and measurement

Assets classified and measured at amortized cost

- Cash and cash equivalents
- Trade receivables and other receivable (including advances and refundable deposits or guarantees excluding prepaid expense)
- Current investment deposit at bank
- Investments in debt securities

Assets classified and measured at fair value through other comprehensive income - none

Notes to the financial statements (continued)

December 31, 2021 and 2020

Assets classified and measured at fair value through profit or loss

• Derivative assets (other current assets)

Liabilities classified and measured at amortized cost

- Short-term borrowings from financial institutions
- Trade payables and other payables (including accruals and repayable guarantees excluding deposits received and advances received from sales)
- Long-term borrowings from financial institutions.
- Lease liabilities

Liabilities classified and measured at fair value through profit or loss

• Derivative liabilities (other current liabilities)

Impairment

Impairment loss from the expected credit loss of financial assets shall be recognized under General approach in the following stages :

- Stage 1 (performing): the 12 month expected credit loss shall be recognized in profit or loss. Interest income (if any) shall be calculated base on gross carrying amount without netting the expected credit loss.
- Stage 2 (under performing): upon significant rise in credit risk and not being at low level, the entity shall recognize the full lifetime expected credit loss in profit or loss. Interest income (if any) shall be calculated based on the same principle to Stage 1.
- Stage 3 (credit impaired): upon significant rise in credit risk of financial asset that is considered as credit impaired, the entity shall recognize the full lifetime expected credit loss in profit or loss. Interest income (if any) shall be calculated from amortization cost base on gross carrying amount net of the allowance for impairment.

For trade receivables and contract assets, the entity is able to adopt simplified approach by recognizing the full lifetime expected credit loss for financial assets considered as aforesaid. In consideration and measurement of expected credit loss for both General approach and Simplified approach, the historical credit loss shall be combined with the forward looking information pertaining to the assets and significant factors relating to economic environment.

In respect of receivables, the Group categorized the population by focusing on aging balance information whereby the past records were captured for historical credit loss approximately 1 year. However, the Group had exercised certain mitigating measure indicated in the accounting guidance for Temporary Mitigating Policies for Alternative Accounting on the Effects from Pandemic Situation of the Coronavirus 2019 (COVID-19), issued by TFAC in April 2020 (effective only in 2020). Such mitigating measure related to exemption from combining forward looking information for the assets adopted the Simplified approach on consideration and measurement of the expected credit loss.

Hedge accounting

Hedge accounting is aimed for reflecting the impacts in the financial statements that are caused in risk management activities using the financial instruments on management of exposures to the risks and such risks shall affect profit or loss and/or other comprehensive income. Relationships and related accounting treatment of hedge accounting are divided into three categories i.e. fair value hedge, cash flows hedge, and hedge of net investment in foreign entity.

Derivative financial instruments are used to manage fair value risk exposed by change in foreign exchange rates arising from operating activities. Derivatives are not intended to use for trading purpose.

Notes to the financial statements (continued)

December 31, 2021 and 2020

However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments. Derivatives are recognized initially at fair value and then are re-measured at fair value. Gain or loss on re-measurement to fair value is recognized as profit or loss.

The fair value of derivatives is the quoted market price at the statement of financial position date, which is the Level 2 inputs of the fair value hierarchy whereby such price is the present value of the quoted derivative price where market approach was used as valuation technique and core information used in evaluation was the adjusted exchange rates in market to fit for the issued instrument which was computed by bank who was the counterparty.

Revenue Recognition

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group, the amount of the revenue as well as related cost can be measured reliably whereby there is consideration about characteristics, amount, timing as well as uncertainty of revenue and contractual cash flows from contract with customer.

Sales are recognized, at a point in time, net of discounts such as deduction of trade discounts, sales return, rebate on award redemptions when delivery has taken place and transfer of significant risks and rewards as well as control of goods to the buyer has been completed. No revenue is recognized if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Transportation income is recognized over time.

Service income is recognized at a point in time when the Group has completely rendered service to the customer and on an accrual basis.

Interest income is recognized over time on a time proportion basis that reflects the effective yield on the asset if significant.

Rental income on the assets which is operating lease is recognized over time on a straight-line basis over the lease term.

Other income is recognized on an accrual basis.

Expense Recognition

Expenses are recognized on an accrual basis.

Income Tax

Income tax on profit and loss for the year recognized by the Group in the statements of comprehensive income consisted of current tax and deferred tax.

Current Tax

Current tax is the amount of tax payable or recoverable which is calculated from taxable profit or loss for the year, using tax rates enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years (if any).

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY Notes to the financial statements (continued)

December 31, 2021 and 2020

Deferred tax

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not recognized for the initial recognition of assets and liabilities that affect neither accounting nor taxable profit to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, at the tax rates that are expected to apply to the period when the deferred tax asset is realized or the tax liability is settled based on tax rates that have been enacted as at the statement of financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profit will be available against which the asset can be utilized. Deferred tax asset are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

4. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties are those parties controlled by the Company or have power control over the Company, directly or indirectly, or have significant influence over the financial or operating policies of the company.

(13,249)	5,970	
	2021 (15,901) - 2,652	

Significant assumptions used in calculation of liability for post-employment benefits are as follows:

• Discount rate 2.14 - 2.83% per annum in 2021 and 1.51 - 1.77%

per annum in 2020

• Salary increase rate 6.0% per annum in 2021 and 2020

• Employee turnover rate 5.73 - 34.38% per annum in 2021 and 2020

• Mortality rates Based on Thai Mortality Table

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	In Thousand Baht	
	Increase	Decrease
Defined benefit obligation at December 31, 2021		
Discount rate (0.5% change)	(7,919)	8,604
Salary increase rate (1% change)	13,867	(11,937)
Employee turnover rate (20% change)	(25,801)	35,653

			<u> </u>		

At the annual general meeting of the shareholders of the Company held on April 7, 2021, the shareholders passed the following resolutions :

- a) decrease authorized share capital from Baht 4,401,613,960 (4,401,613,960 ordinary shares at Baht 1 par value) to Baht 4,401,609,967 (4,401,609,967 ordinary shares at Baht 1 par value). The Company registered the capital decrease with the Ministry of Commerce on April 19, 2021;
- b) increase authorized share capital from Baht 4,401,609,967 (4,401,609,967 ordinary shares at Baht 1 par value) to Baht 4,601,683,147 (4,601,683,147 ordinary shares at Baht 1 par value). The 200,073,180 new ordinary shares were reserved for stock dividend. The Company registered the capital increase with the Ministry of Commerce on April 20, 2021.

At the annual general meeting of the shareholders of the Company held on April 24, 2020, the shareholders passed the following resolutions :

- a) decrease authorized share capital from Baht 4,201,543,026 (4,201,543,026 ordinary shares at Baht 1 par value) to Baht 4,201,540,599 (4,201,540,599 ordinary shares at Baht 1 par value). The Company registered the capital decrease with the Ministry of Commerce on May 8, 2020;
- b) increase authorized share capital from Baht 4,201,540,599 (4,201,540,599 ordinary shares at Baht 1 par value) to Baht 4,401,613,960 (4,401,613,960 ordinary shares at Baht 1 par value). The 200,073,361 new ordinary shares were reserved for stock dividend. The Company registered the capital increase with the Ministry of Commerce on May 15, 2020.

Dividends

At the annual general meeting of the shareholders of the Company held on April 7, 2021, the shareholders approved the appropriation of dividends of Baht 0.23 per share, amounting to Baht 1,014.6 million, from the profit of 2020. The dividend distributed to the shareholders comprise of stock dividend on the basis of 22 ordinary shares for 1 stock dividend amounting to Baht 200.1 million (200.1 million ordinary shares at Baht 1 par value) and cash dividend of Baht 814.5 million on May 7, 2021. The Company registered the increase in paid-up share capital with the Ministry of Commerce on May 7, 2021.

At the annual general meeting of the shareholders of the Company held on April 24, 2020, the shareholders approved the appropriation of dividends of Baht 0.25 per share, amounting to Baht 1,062.6 million, from the profit of 2019. The dividend distributed to the shareholders comprise of stock dividend on the basis of 20 ordinary shares for 1 stock dividend amounting to Baht 200.1 million (200.1 million ordinary shares at Baht 1 par value) and cash dividend of Baht 862.5 million on May 22, 2020. The Company registered the increase in paid-up share capital with the Ministry of Commerce on May 22, 2020.

22. SHARE PREMIUM

The share premium is set up under the provision of Section 51 of the Public Companies Act B.E. 2535, which requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). The share premium is not available for dividend distribution.

23. LEGAL RESERVE

The legal reserve is set up under the provisions of Section 116 of the Public Companies Act B.E. 2535. Section 116 requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorized capital. The legal reserve is not available for dividend distribution.

Earnings per share (Baht)	0.7266	0.4251	0.7052	0.4148	

28. PROVIDENT FUNDS

The Company has established contributory provident funds for their employees. Membership to the funds is on a voluntary basis. Contributions are made monthly by the employees at the rate of 3 - 15% of their basic salaries and by the Company pays contributions according to the employee's age at the rate of 3 - 7% of their basic salaries. The provident funds are registered with the Ministry of Finance as juristic entities under the Provident Fund Act B.E. 2530 and are managed by licensed Fund Managers.

The Company's contributions to the fund for the years 2021 and 2020 amounting to approximately Baht 46.3 million and Baht 44.8 million, respectively, were recorded as part of distribution costs amounting to approximately Baht 38.7 million and Baht 35.4 million in 2021 and 2020, respectively, and administrative expenses amounting to approximately Baht 7.6 million and Baht 9.4 million in 2021 and 2020, respectively, in the statements of comprehensive income.

Notes to the financial statements (continued)

December 31, 2021 and 2020

29. SEGMENT INFORMATION

The Group is engaged in merchandising of construction and decoration materials and equipment, therefore, management considers that the Group had only one business segment.

The Group's segment revenues based on the geographic location of customers for the years ended December 31, 2021 and 2020 were as follows:

	In Thousand Baht			
	Consoli	idated		
	financial st	atements	Separate financi	al statements
	2021 2020		2021	2020
Thailand	32,842,463	25,971,352	32,842,463	25,971,352
Kingdom of Cambodia	655,113	831,611	167,519	236,597
Republic of the Union of Myanmar	228		228	-
Total	33,497,804	26,802,963	33,010,210	26,207,949

Information on key customers (customers whose transactions exceeding 10% of total balance of transactions) for the years ended December 31, 2021 and 2020.

The Group had no transaction with any key customer. Accordingly, the accompanying financial statements do not include information relating to key customers.

30. DISCLOSURES OF FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Group is exposed to normal business risks relating to liquidity risk, credit risk, foreign currency risk and interest rate risk. The Group has used derivative financial instruments for hedging against the foreign currency risk without intention for trading or speculation purposes. The Group had no significant change in risk management policy relating to financial instruments during 2021 and 2020.

Liquidity Risk

The Group manages it liquidity risk by maintaining a level of cash and cash equivalents as well as management of current assets and current liabilities and short-term and long-term sources of fund as deemed adequate to finance the operations of the Group and to mitigate the effects of fluctuations in cash flows and the lack of financial liquidity.

Credit Risk

Credit risk is the risk that a customer or counterparty is unable or unwilling to meet its financial and contractual commitments. To mitigate this risk, the Company periodically monitor and assess the financial viability of customers and counterparties.

Carrying amount of receivables presented in the statements of financial position is the maximum exposure to credit risk.

December 31, 2021 and 2020

Foreign Currency Risk

The Group has significant business transactions internationally, majority is importation of merchandises for local sales, giving rise to exposure to fluctuations in foreign currencies. In practical, the Company mitigates this risk by using the forward exchange contracts (buy) in the appropriate timing and situations.

As at December 31, 2021 and 2020, the Company had the outstanding forward exchange contracts as follows:

	In Thousand			
	Foreign Currency		Fixed B	Baht
_	2021	2020	2021	2020
Forward exchange contracts - buy		_		
• U.S. Dollar	-	8,877	-	272,012
• CNY	200,000	27	1,056,985	120

In addition, the fair values of forward exchange contracts (buy) outstanding as at December 31, 2021 and 2020 were as follows :

	In Thousand Baht		
	2021	2020	
Forward exchange contract – buy			
• U.S. Dollar	-	266,660	
• CNY	1,045,195	124	

As at December 31, 2021 and 2020, the Group had significant outstanding non-hedged foreign currency assets amounting to U.S Dollars 1.6 million and U.S Dollars 2.2 million, respectively, and had significant outstanding non-hedged foreign currency liabilities amounting to U.S. Dollars 0.6 million and CNY 5.6 million, respectively.

Interest Rate Risk

Interest rate risk arises from the fluctuation of market interest rates in the future, which may have a negative effect to current and future operations and cash flows of the Group. The Group's management believes that the interest rate risk is minimal because the Group's deposits at banks, short-term and long-term loans, current investment - deposit at bank, investments in debt instruments and financial lease bear interest at the floating market interest rates or fixed rates that approximate the market interest rates.

Fair Value Measurements

The following method and assumptions were used by the Group in estimating fair values of financial assets and financial liabilities :

Cash and cash equivalents, trade and other receivables, current investment - deposit at bank, investments in debt securities, trade and other payables, short-term and long-term loans and lease liability had carrying amounts approximate their fair values due to these financial assets and financial liabilities will mature in short-term period or bear interest at the rates approximate or at the floating rates aligned with market interest rates (Level 2 inputs of fair value hierarchy).

Notes to the financial statements (continued)

December 31, 2021 and 2020

31. CAPTIAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that they have an appropriate financial structure and preserves the ability to continue their business as a going concern.

As at December 31, 2021 and 2020, the Group's debt-to-equity ratio were 0.98: 1 and 1.09: 1, respectively, and the Company's debt-to-equity ratio were 0.97: 1 and 1.08: 1, respectively.

32. COMMITMENTS

As at December 31, 2021, the Group had:

- a) commitment to construction agreements for building and machinery with a related party and local companies amounting to Baht 156.9 million, and
- b) unused letters of credit totaling approximately U.S. Dollars 0.1 million (equivalent to Baht 3.4 million) and CNY 35.4 million (equivalent to Baht 178.9 million).

33. EVENT AFTER THE REPORTING PERIOD

On January 4, 2022, Global House International Co., Ltd. (Joint Venture) has called for remaining share payment of Baht 298.6 million. The Company paid for such share calling on January 17, 2022.

At the Board of Directors' meeting held on February 11, 2022, the Board of Directors passed the resolution to pay the dividend for the 2021 operations totaling Baht 1,372.72 million to the shareholders. The dividend comprise stock dividends on the basis of 23 ordinary shares for 1 stock dividend amounting to Baht 200.07 million (200.07 million ordinary shares at Baht 1 par value) and cash dividend of Baht 1,172.65 million. The dividend payment will be further proposed to the Annual General Meeting of the Company's shareholders for approval in April 2022.

34. RECLASSIFICATION OF ACCOUNTS

Certain accounts in the statement of financial position as at December 31, 2020 (debentures - Due within one year) were reclassified to conform to and be comparable with the presentation of the statement of financial position as at December 31, 2021, without effect to previously reported profit or shareholders' equity. Such reclassifications were as follows:

	In Thousand Baht				
	Consolidated / Separate financial statements

The Nomination and Remuneration Committee Report

Dear Shareholders of Siam Global House Public Company Limited

The Nomination and Remuneration Committee has performed their duties followed in good corporate governance principle and specified Nomination and Remuneration Committee Charter by performing duties in recruitment and selection, nomination of the qualified person to take the position of directors and top executives, including determination of the form and criteria for remuneration of directors and subcommittee and top executives of the company. The Nomination and Remuneration Committee consist of 3 following directors;

1. Pol.Gen.Kawee Supanun Chairman of Nomination and Remuneration committee

Dr.Vongsak Swasdipanich Nomination and Remuneration Committee
 Mr.Witoon Suriyawanakul Nomination and Remuneration Committee

In the year 2021, the Nomination and Remuneration Committee has convened the meeting 2 times by all directors has fully attended the meeting to consider the important matters which summarized the materiality as follows;

- 1. Consider to recruit the appropriate qualified person to take a position of director, and propose to the Board of the directors to consider before presenting to the Annual General Meeting 2021 for consideration to appoint directors replacing those who would retire by rotation for the year 2021. The company gives shareholders an opportunity to propose name of qualified candidates for the company's director position from October 21, 2020 to January 31, 2021. Anyway, there were none of the proposals for candidates to be elected as the company's directors. Thus, the Nomination and Remuneration Committee has considered to propose the appointment of directors who would retire by rotation to take a post of directors for another tenure
- 2. Consider to determine the remuneration of the company's directors and subcommittee in fair and proper rate, to persuade the remuneration with the overall company's performance, and compared with other companies in the same industry group. In 2021, the nomination and remuneration committee has agreed to determine the remuneration of directors should be not exceeding Baht 15,000,000.00 which consists of the monthly remuneration, remuneration per meeting attendance (include group of sub-committees) and bonus to propose the Annual General Meeting of shareholders to approve by the shareholders' meeting has approved the proposal. Anyhow, more details are declared in subject "Key Performance Report in Corporate Governance" under subject "individual remuneration"
- 3. Consider to prepare the Nomination and Remuneration Committee Charter to be guideline in working which covered the matters in recruitment procedure and remuneration consideration according to the good corporate governance practical guidelines of the Stock Exchange of Thailand with approval resolution from the Board of Directors no. 6th/2021 and publicized on the company website under subject "Good Corporate Governance"

The Nomination and Remuneration has performed their duties as assigned with prudence and transparent followed in good corporate governance code to build trust to all shareholders and stakeholders.

(Pol.Gen.Kawee Supanun)
